

Logistics & Managed Services  
for Demanding Customers

**Agility**  
*Defense & Government Services*

**Determined to lead in ethics and compliance. Making a difference in communities where we operate. Using our expertise to transform and save lives.**

*The Agility Code of Business Ethics & Conduct  
is available at [www.agility.com](http://www.agility.com)*

**LEADERSHIP IN ETHICS & COMPLIANCE**

We have an obligation to do business honestly, ethically and lawfully. Our Compliance program includes the Agility Code of Business Ethics & Conduct, anti-bribery and competition compliance policies, and a guide to international sanctions.

- Mandatory online ethics, safety and security training for employees worldwide – administered by an outside party, available in five languages, and includes training in U.S. Foreign Corrupt Practices Act and UK Bribery Act.
- Independent investigators to handle complaints submitted directly or anonymously via Agility's secure ethics reporting website, toll-free global alert lines or other means. Whistleblowers are protected.
- Strong internal controls to govern travel and entertainment. We perform detailed account reconciliation, transaction review and approval, vendor approval and payment, and due diligence and training of agents and contractors.
- Labor audits and human rights training for migrant workers in countries where we employ them.

**OUR COMMUNITIES**

Agility has invested in more than 1,150 community projects in 80 countries, reaching more than one million people in need over the past decade. In addition to corporate-led initiatives, Agility offers grants that enable employees to identify and fund worthy community projects. As a member of the UN's Logistics Emergency Team (LETs) initiative, Agility has responded to more than 30 humanitarian disasters around the world. In the Philippines, Indonesia, Haiti, Pakistan, South Sudan, Myanmar and other countries, we have deployed logistics experts and provided trucking, warehousing, distribution and other services to support the humanitarian community during major emergency response operations.

**VETERANS**

We have raised more than \$2.7 million to pay for benefits counseling, job training and career placement for severely wounded military veterans and to assist their spouses and caregivers. We founded the Paralyzed Veterans Golf Open (PVGO) in 2008 and, through the annual tournament, we provide funds for Paralyzed Veterans of America's Operation PAVE (Paving Access for Veterans Employment) program. We support the USO and, in the UK, BLESMA, and contribute to organizations devoted to the welfare of veterans and active-duty military and their families. For information about the PVGO, go to: [www.pva.org/pvgo](http://www.pva.org/pvgo)

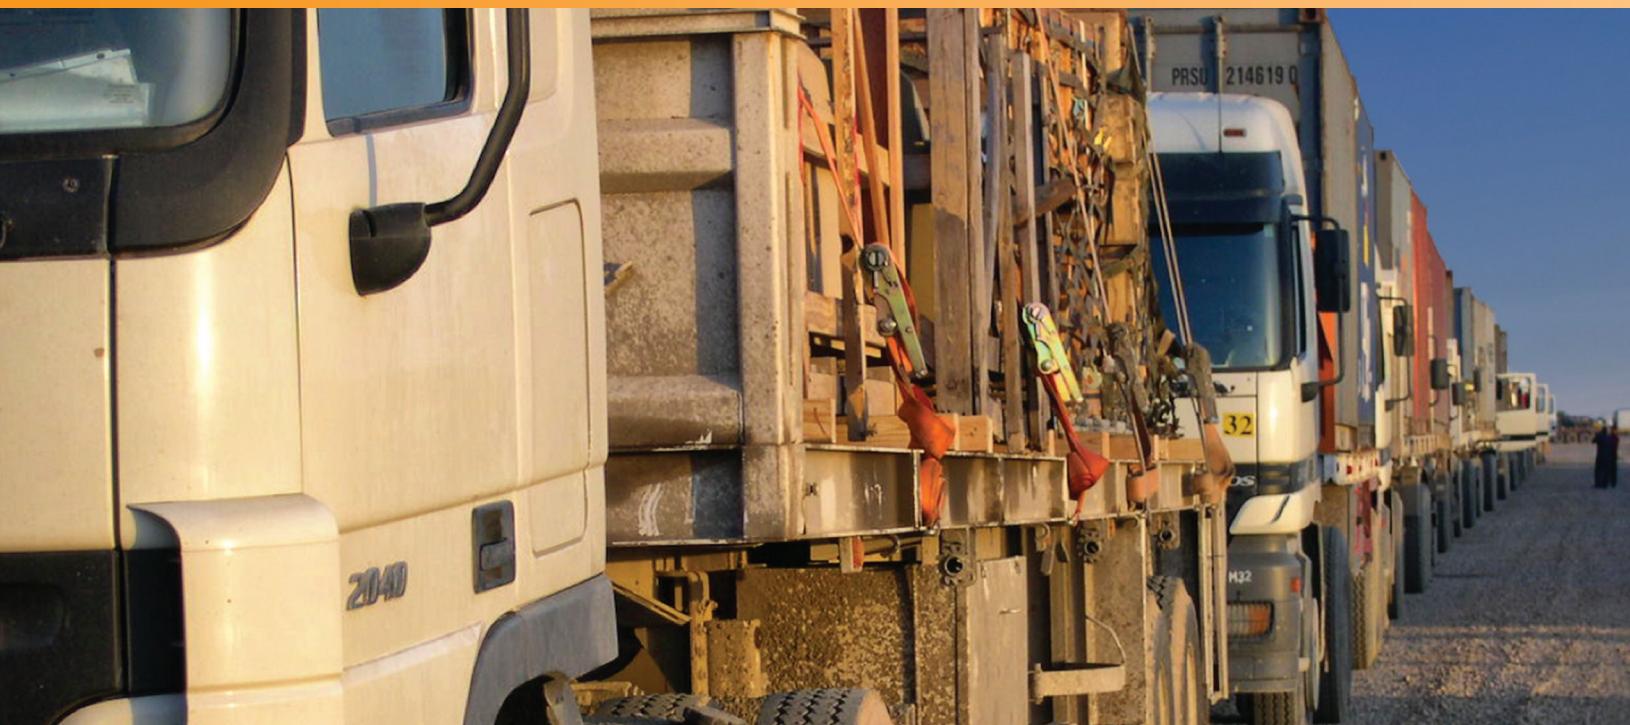

## Your Logistics. Your Success.

The difference between success and failure is in the supply chain. Is it built right? Is it efficient? Do you trust it? Can it handle the unexpected? Does it improve your performance? Did you get what you paid for?

Agility Defense & Government Services (DGS) is a leading provider of logistics and managed services to governments, businesses, international organizations and relief groups around the world. We provide logistics services, supply chain solutions, project management and consulting to customers in Africa, the Americas, Europe, the Middle East and Asia. Our work often involves hard-to-do jobs in challenging environments. Wherever we are, we help customers control their costs, improve productivity and achieve peak performance.

*"Agility taught us to embrace contractors in the deployed environment rather than tolerate them."*  
– J4 Permanent Joint HQ, UK MoD

## WHO WE SERVE

We work for demanding customers.

- Government and defense agencies
  - US, UK
  - Australia, Denmark, Estonia
  - Bosnia, South Africa
- Oil & gas majors
- Commercial businesses
- International institutions
  - Humanitarian agencies

- Logistics consulting & planning
- Project management
- Expeditionary logistics
- Fleet management
- Household goods programs
- Fast field medical

*"Agility gave us an almost embarrassing budget surplus through savings in disposal and transport."*  
– Australian task force commander

# How We Help Customers

**3PL SERVICES**  
We manage warehousing, distribution, freight forwarding, customs clearance, consolidation, kitting, labeling, cargo tracking, inventory optimization, security, re-export, disposal, re-sale and leasing of goods for commercial customers, government agencies, international institutions and relief groups.

**LIFE SCIENCES & FAST FIELD MEDICAL**  
We manage urgent shipments of biological samples, perishables, sensitive medicines, medical & scientific equipment to Africa for a publicly funded research organization. We also source, deliver, construct, stock and maintain turnkey medical clinics and "hospitals in a box."

**EXPEDITIONARY & DEPLOYED LOGISTICS**  
We source, procure, store and deliver critical supplies for military deployments peacekeeping and humanitarian missions, relief efforts, disaster recovery and long-term development initiatives. We deliver cargo and fuels, and offer heavy lift capability for deployments, along with life support services and mobile infrastructure for those in the field.

## PROJECT MANAGEMENT

We designed and manage the world's largest single-source household goods contract for the UK Ministry of Defence. We have exceeded all KPIs and delivered massive savings for the MoD, which has made our work a centerpiece of its larger logistics transformation effort and brought Agility DGS on to handle logistics for heavy lift, chemicals, fuels and expeditionary logistics.

## LOGISTICS MANAGEMENT SERVICES

We analyze, design, plan and execute logistics services for oil and gas capital projects on behalf of one of the world's largest energy majors.

## BULK FUELS & TERMINALS

We own and operate Guam Tristar Terminal, providing bulk fuel storage and distribution to the U.S. military, Guam Power Authority and commercial customers.
